

## “CUT IT & LEAVE IT”

As Spring and Summer are fast approaching, the

### **Lumberton Township Green Team**

requests the following for

#### **ENVIRONMENTALLY-FRIENDLY LAWN CARE:**

- Just Cut It and Leave It
- Cut grass at a higher level
- Leave clippings on the lawn
- Fertilize less since clippings return nutrients to the soil

#### **EXCESSIVE GROWTH**

Double Mow

Mulch Heavy Clippings in the Garden

Mix Clippings with Soil

Compost

#### **GRASS CLIPPINGS**

Place grass in plastic bags, weighing no more than 30 pounds per bag, and place them outside your green trash container. Obtain required grass clipping stickers (\$2 each) at the Township Building prior to placing curbside. **However, we strongly urge you to use the clippings as composting source for enriched soils.**
